

CycBar UV™

The CycBar UV provides superb UV output levels at 365 nm for specialized applications where true UV, all-LED illumination is required.

**Light source**

29x 365nm UV LEDs

**Zoom range**

10°

Precision UV-stable components are housed in an IP65-rated casing with flexible mounting options enabling rapid installation, making it perfect for themed environments and events of all types. Based on the lightweight static 1.000 mm linear bar now with 29 UV LEDs, the CycBar UV is an ideal choice for theatres, theme parks, attractions, leisure facilities and entertainment events requiring a true UV 'black light' effect.

Built-in DMX and RDM control facilitates accurate light levels, and a wireless control option allow for the retro-fitting of existing installations without needing additional control options.

Technical Specification

Source

- Light source type: 29x 365nm UV LEDs
- LED life expectancy: min. 16 000 hours
- Typical lumen maintenance: 70% @ 16 000 hours
